

# BC NORTHERN REAL ESTATE BOARD

October 6, 2015

## News Release

---

The BC Northern Real Estate Board reports 3833 properties worth \$979.3 million sold through the Multiple Listing Service® (MLS®) in the first nine months of 2015. At this time last year, 4195 properties worth \$1.07 billion had changed hands. As of September 30<sup>th</sup> there were 4575 properties of all types available for sale through the MLS®, down slightly from 4658 properties at the end of September last year.

BCNREB Vice-President William Lacy comments: “Given the slump in energy prices and overall economic lull, it is reassuring to see the overall numbers for the BCNREB are holding strong. Certain areas have been hit harder, but other areas are showing increases in prices and overall activity to create for a balanced result through the third quarter of the year.

With predicted increases in global activity, and growth predicted for BC in the coming quarters, we are looking for a solid close to the year and for increases to resume throughout next year.

Also, with potential boosts to the northern markets via large energy projects, this may be an opportunity to take advantage before the next upswing in the market.”

By Region:

### **Cariboo**

**100 Mile House:** So far this year 289 properties worth \$68.4 million have changed hands, compared to 270 properties worth \$56.9 million to the end of September in 2014.
